“ *I was so sorry to hear of Nancy Merle's passing. We were coworkers in the laboratory at Witham Hospital during all her years as a phlebotomist and she was a delight. I always had gun calling her Nancy Merle and she told me often that I was the only person ever to do that. There was never a hair out of place, and never a nail chipped! Her jewelry always sparkled. She would sometimes call me on her birthday and I missed that call this year. After she moved from Lebanon she'd stop in the lab to say hello. She would tell Denise Reynolds and me that she loved us and that meant the world. We loved Nancy Merle right back! Although we never met her family it seemed that we knew you because she talked about you so often. Her love for you shined very brightly.*
